Australian owned, born of a deep love of the land and all that it provides. Every product has ingredients that's sourced locally, supporting local growers and producers.

One of the customer favourites, Italian Liguria Honey is sourced from local growers of Kangaroo Island. During the devastating bush fires many of the Kangaroo Islands beehives were destroyed and it will take time and assistance to rebuild.

When buying Liguria Honey products, you will be supporting the local Bee farmers of Kangaroo Island.

PUT YOUR BEST FACE FORWARD

Introducing our NEW revolutionary face masks enriched with ingredients powered by nature – L'Occitane's best kept secret for soft, radiant skin.

RADIANCE

Gently rid the skin of impurities and dead skin cells with this radiance-boosting exfoliating mask.

Formulated with freshly harvested pomelos and natural fruit acids, this jam-textured scrub contains small exfoliating grains to gently yet effectively remove dulling debris from the skin's surface. Skin is left feeling soft and smooth with a fresh, radiant glow.

SOOTHING

This soothing, reparative mask has a smooth, yogurt-like texture which melts into skin, instantly comforting dry, dehydrated and sensitised skin.

Enriched with freshly picked blackcurrants naturally high in magnesium and calcium, this calming mask helps to soothe depleted skin, leaving it feeling plump and refreshed.

PURIFYING

Enriched with freshly cut, organic thyme, high in imperfection-diminishing zinc, this mask with its purée-like texture provides gentle exfoliation while immediately absorbing excess oil.

From the very first application, the skin is perfectly cleansed, and imperfections appear smoothed. The skin looks replenished with a renewed glow.
